### Okeanis Eco Tankers Corp. Reports Unaudited Interim Condensed Results for the Second Quarter and First Fiscal Half of 2019

GREECE, August 15, 2019 – Okeanis Eco Tankers Corp. ("OET" or the "Company") today reported unaudited interim results for the second quarter and first half year ended June 30, 2019.

#### HIGHLIGHTS - Q2 2019

- Time charter equivalent ("TCE", a non-IFRS measure) revenue and Adjusted EBITDA (a non-IFRS measure) of \$14.4 million and \$8.3 million, respectively. Loss for the period of \$3.6 million or \$0.11 per share (basic & diluted).
- Fleetwide adjusted TCE rate of \$20,253 per operating day; VLCC, Suezmax and Aframax TCE rates of \$31,800, \$19,400 and \$18,000 per operating day, respectively.
- Daily vessel operating expenses ("opex", a non-IFRS measure) of \$7,660 per calendar day, including management fees.

#### IMPORTANT HALF-YEAR 2019 EVENTS

- In January 2019, the Company entered into a sale and lease back arrangement with Ocean Yield Malta Limited for the re-financing of M/T Milos.
- In March 2019, the Company up-listed to Oslo Axess from the Merkur Market.
- In April 2019, the Company was granted an option by the Alafouzou family to acquire two Suezmax newbuilding vessels to be constructed at Hyundai Heavy Industries with expected delivery dates in the third quarter of 2020. The option expires in November 2019 and secures a right for the Company, at no cost, to acquire the vessels at the Alafouzou family's contract price.
- In May 2019, the Company took delivery of the first VLCC of its newbuilding program with Hyundai Heavy Industries, Nissos Rhenia (Hull 3012).
- Also in May 2019, the Company successfully conducted a private placement, raising gross proceeds of \$15,000,000 through the placement of 1,580,000 new shares at a subscription price of NOK 83 per share.
- In June 2019, the Company took delivery of the second VLCC of its newbuilding program with Hyundai Heavy Industries, Nissos Despotiko (Hull 3013).
- Also in June 2019, the Company entered into and drew down on an \$11 million secured loan facility for its scrubber retrofit project from BNP Paribas. The financing carries an interest rate over Libor of 2.00%, a 5-year tenor, and a 4-year repayment profile beginning one year after drawdown.

#### FINANCIAL & OPERATIONAL REVIEW

**Revenues** for Q2 2019 of \$19.6 million, up from \$19.2 million in Q1 2019. The 2% increase was due to the delivery of two VLCC newbuildings (Nissos Rhenia and Nissos Despotiko) during the quarter, partially offset by lower achieved spot rates for both Suezmax and Aframax vessels.

**Voyage expenses** for Q2 2019 of \$4.9 million, up from \$4.2 million in Q1 2019. The 17% increase was due to an increase in the number of vessels operating in the spot market during the quarter.

**Vessel operating expenses** for Q2 2019 of \$5.1 million, up from \$4.1 million in Q1 2019. The increase was due to the delivery of two VLCC newbuildings (Nissos Rhenia and Nissos Despotiko) during the quarter.

**Depreciation and amortisation** for Q2 2019 of \$4.5 million, up from \$3.8 million in Q1 2019. The increase was due to an enlarged fleet.

**General and administrative expenses** for Q2 2019 of \$0.6 million, down from \$1.3 million in Q1 2019. The decrease was primarily attributable to the recognition and disbursement of annual cash bonuses to shore-based staff in Q1 2019 and a reduction in professional fees.

**Interest and finance costs** for Q2 2019 of \$7.5 million, up from \$4.8 million in Q1 2019. The 56% increase was primarily attributable to an increase in interest bearing debt and fees paid in connection with newly signed loan agreements, partially offset by a decrease in the effective interest rate. Total indebtedness as of June 30, 2019 of \$516.2 million, up from \$339.9 million as of December 31, 2018.

The Company generated a **loss** in Q2 2019 of \$3.6 million, or \$0.11 per basic and diluted share, compared to a profit in Q1 2019 of \$0.5 million, or \$0.02 per basic and diluted share. The loss is mainly due to an increase in interest and other finance costs in connection with an increase in the indebtedness of the Company and its wholly owned subsidiaries ("the Group").

Net cash **provided by operating activities** in Q2 2019 of \$4.0 million resulting from operating profit (before changes in working capital) of \$6.3 million, partially offset by net working capital outflows of \$2.3 million.

Net cash flow from operating activities depends upon our overall profitability, market rates for vessels employed on voyage charters, charter rates agreed to for time charters, the timing and amount of payments for expenditures and unscheduled repairs and maintenance, fluctuations in working capital balances and bunker costs.

Net cash **used in investing activities** in Q2 2019 of \$129.1 million primarily related to the payment of delivery instalments for two VLCC newbuildings, pre-delivery progress payments for three VLCC newbuildings under construction, and deposits for exhaust gas cleaning systems ("scrubbers").

\* Definitions in section Use and Reconciliation of Alternative Performance Measures at the end of this report

Net cash provided by financing activities in Q2 2019 of \$120.1 million primarily comprising \$113.2 million from issuance of debt and private placement gross proceeds of \$15.0 million, partially offset by \$4.6 million related to partial repayment of long-term debt.

As of June 30, 2019, the Group's cash balance (including restricted cash) was \$19.3 million, compared to \$21.1 million as of December 31, 2018.

As of August 15, 2019, the Company had 32,890,000 total shares outstanding.

## FLEET

As of June 30, 2019, the Company's fleet comprised 15 vessels, with an aggregate capacity of approximately 3.5 million deadweight tons:

- three Aframax/LR2 vessels with an average age of 4 years
- four Suezmax vessels with an average age of 2 years
- two VLCC vessels with an average age of 0 years
- six VLCC newbuildings under construction at Hyundai Heavy Industries with expected delivery in 2019

## PRINCIPAL RISKS AND UNCERTAINTIES

The following represent principal risks and uncertainties that might have an effect on our consolidated financial statements for the year ending December 31, 2019:

### Liquidity risk

Adverse economic conditions in the tanker freight market where certain of our vessels are operating, delays in collecting receivables from our customers and a resulting unmatched position of assets and liabilities' maturities may subject us to a liquidity risk. The Company is constantly monitoring its liquidity in order to enable the smooth running of its operations and servicing of its loan obligations. Moreover, unencumbered cash, together with cash to be generated from operations, loans in place to cover our capital commitments, and if necessary the utilization of unused sources of liquidity are expected to be sufficient to adequately mitigate liquidity risk. As of today, the Company is in compliance with its loan covenants.

### Currency risk

The company does not face currency risk as its principal transactions and borrowings are predominately denominated in US dollars. Management estimates that currency fluctuations will not have a material impact on the Company's operations.

### Spot market volatility risk

The cyclical nature of the tanker industry causes significant increases or decreases in the revenue that we earn from our vessels, particularly those vessels that operate in the spot market. In order to avoid exposure to spot market volatility, the Company has established partnerships with some of the most reputable chartering agencies of the industry.

### Interest rate risk

LIBOR fluctuations affect interest rates which can expose the Company to increased borrowing costs, given the Company's long-term floating rate debt. Management is closely monitoring the trends in interest rates.

### Environmental risk

The Company aspires to have the minimum environmental footprint possible. With its modern vessels and strategic investment in anti-polluting technologies, the Company's fleet is one of the newest in industry. Management estimates that there will not be any changes to the respective legislation in the foreseeable future that could affect the Company's business.

### Credit risk

The Company is also exposed to counterparty risk with respect to its customers. If a customer fails to meet its obligations to us or attempts to renegotiate our charter agreements, we could sustain a financial loss. Customer receivables primarily derive from a large and widespread customer base. The Company's customers are mainly multinational oil companies and physical oil trading houses. As of today the Company has no doubtful debts. Furthermore, outstanding balances are monitored on an ongoing basis, and thus management believes that the Company's risk of not collecting its receivables is minimal.

## RESPONSIBILITY STATEMENT

We confirm that, to the best of our knowledge, the unaudited interim condensed consolidated financial statements have been prepared in accordance with IAS 34 "Interim Financial Reporting" as issued by the International Accounting Standards Board.

Having made an assessment of the Company's ability to continue as a going concern, the directors are not aware of any material uncertainties related to events or conditions that may cast doubt upon the Company's ability to continue as a going concern.

The interim financial report for the period ended June 30, 2019, also provides alternative measures of the Company's overall performance, highlighting key business dates and events.

## Report on Review of Interim Financial Information

To the Shareholders  
of Okeanis Eco Tankers Corp.

### Introduction

We have reviewed the accompanying condensed consolidated balance sheet of Okeanis Eco Tankers Corp. and its subsidiaries (the "Group") as of June 30, 2019 and the related condensed consolidated statement of comprehensive income, condensed consolidated statement of changes in equity, condensed consolidated statement of cash flows for the six-month period then ended, and selected explanatory notes, as set out on pages 7 to 17 (the "interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34 *Interim Financial Reporting* (IAS 34). Our responsibility is to express a conclusion on this interim financial information based on our review.

### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with IAS 34.

## NOTES TO THE UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED JUNE 30, 2019

## 1 General Information

Okeanis Eco Tankers Corp. was founded on April 30, 2018 as a private limited corporation under the laws of the Republic of the Marshall Islands whose shares are listed on Oslo Axess. OET is majority controlled by Glafki Marine Corporation ("Glafki") through voting interest. The Company was founded for the purpose of acquiring an ownership interest in sixteen companies, fifteen of which owned a vessel on the water or a newbuilding under construction and a commercial management company (OET Chartering Inc.), collectively the "Contributed Companies". The principal activity of the subsidiaries is to own, charter out and operate tanker vessels.

These unaudited interim condensed consolidated financial statements were approved and authorized for issue by the Company's Board of Directors (the "Board") on August 14, 2019.

## 2 General Accounting Principles

Basis of preparation and consolidation

The consolidated financial statements comprise the financial statements of the Group.

The consolidated interim financial statements do not include all information and disclosures required in the annual financial statements and should be read in conjunction with OET's audited consolidated financial statements included in its 2018 Annual Report and prior period unaudited interim condensed consolidated financial statements filed with the Norwegian Financial Supervisory Authority. Interim results are not necessarily indicative of our results for the entire year or for any future period. The same accounting policies and methods of computation used in the 2018 audited consolidated financial statements have been used in these unaudited interim condensed consolidated financial statements, except for the application of IFRS 16 "Leases" which became effective from January 1, 2019. Please refer further below for more information with regards to the adoption of IFRS 16.

The unaudited interim condensed consolidated financial statements have been prepared in accordance with IAS 34 "Interim Financial Reporting" as issued by the IASB, and are expressed in United States Dollars (\$) since this is the currency in which the majority of the Company's transactions are denominated. The interim consolidated financial statements have been prepared on the historical cost basis.

Application of new and revised International Financial Reporting StandardsAdoption of IFRS 16 Leases

In January 2016, the IASB issued IFRS 16 "Leases", which sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract. IFRS 16 supersedes the previous leases standard, IAS 17 "Leases", and related interpretations. The standard is effective from January 1, 2019, and affects all leasing contracts in place at the time of adoption, either as a lessee or as a lessor. The Company, as a lessor, time charters its vessels to third parties under leasing arrangements. As a lessee, the Company is not a party to any material contracts.

The Company adopted IFRS 16 effective from January 1, 2019, and its implementation did not have a material impact on the consolidated financial statements, since changes for lessors are fairly minor and OET's obligations as a lessee, as noted above, are not significant.

The accounting policies applicable to the Company as a lessor are not different from those under IAS 17, and as a result time charter revenue continues to be accounted for as an operating lease under IFRS 16 and is recognized on a straight-line basis over the term of the time charter contract.

There are no other IFRS standards and amendments issued but not yet adopted that are expected to have a material effect on the interim consolidated financial statements.

#### Financial risk factors

The Company's activities expose it to a variety of financial risks: credit risk, currency risk, interest risk and liquidity risk. Since the half-year condensed consolidated financial statements do not include all financial risk management information and disclosures required in the annual financial statements, they should be read in conjunction with the Company's annual financial statements as at 31 December 2018. There have been no significant changes in any risk management policies since year end.

### 5 Long-Term Borrowings

Please refer to the below summary of new debt arrangements the Company entered into during fiscal Q2 2019:

#### Scrubber financing

On June 27, 2019, the Company entered into and drew on an \$11 million secured loan facility to retrofit scrubbers on six of its vessels (two Aframax/LR2s and four Suezmaxes) from BNP Paribas. The facility carries an interest rate over Libor of 2.00%, a 5-year tenor, and a 4-year repayment profile beginning one year after drawdown.

Long-term borrowings, net of current portion and current portion of long-term borrowings are analyzed as follows:

Unused sources of liquidity

On December 3, 2018, the Company entered into a revolving credit facility agreement with an affiliate of the Company's largest shareholder, Glafki, whereby the Company may borrow an amount of up to \$15,000,000. The facility may be used to partially finance the Company's newbuilding program or for other general corporate purposes. The facility bears a fixed annual interest rate of 6.25% on the drawdown amount at each time, with no fixed repayment schedule. The availability period is up to June 30, 2020, which is also the final maturity date of the facility when all outstanding principal and accrued interest is due for repayment. As of today, the Company has not drawn on this facility.

**6 Transactions and Balances with Related Parties**

The Company has entered into management agreements with OET Chartering Inc. a fully owned subsidiary as commercial manager and Kyklades Maritime Corporation ("Kyklades") as technical manager. Kyklades provides the vessels with a wide range of shipping services such as technical support, maintenance and insurance consulting in exchange for a daily fee of \$600 per vessel, which is reflected under management fees in the consolidated statement of profit or loss and other comprehensive income. For the six months ended June 30, 2019, total technical management fees amounted to \$808,200.

Below we present and analyze the outstanding amounts due to the Management Company, to private, related-party vessel owning companies from the Company, as well as amounts due to members of our Board:

|  | AS OF JUNE 30, 2019 | AS OF DECEMBER 31, 2018 |
|--|---------------------|-------------------------|
| [A] Amounts due to Management Company          | 4,101               | 372,184                 |
| [B] Amounts due to FRPEs, net                  | 18,031              | 2,127,840               |
| Amounts payable to Board of Directors' members | 112,500             | 112,500                 |
| <b>Total</b>                                   | <b>134,632</b>      | <b>2,612,524</b>        |

[A] Amounts due to Management Company represent expenses paid by the Management Company on behalf of the Group and for management services rendered, net of payments made to the Management Company, per the terms of the respective vessel technical management agreements.

[B] "FRPEs" are "Family Related Party Entities" – principally non-eco vessel owning companies privately owned by the Alafouzos family. In the period prior to the contribution of the Contributed Companies from Okeanis Marine Holdings SA ("OMH") to the Company (i.e., when they were beneficially owned 100% by OMH), for the sake of operational convenience various expenses or other liabilities of the Contributed Companies were paid by the FRPEs and recorded as unsecured amounts payable, with no fixed terms of payment, from the Contributed Companies to the FRPEs. Examples of the types of expenses and liabilities giving rise to such payables due to the FRPEs include, without limitation: (i) bunker fuel (ii) port expenses; and (iii) canal fees.

Current accounts due from FRPEs represent amounts provided to non-eco vessel owning companies, privately owned by members of the Alafouzos family, for working capital purposes.

All balances noted above are unsecured and with no fixed terms of payment.

**7 Share Capital and Additional Paid-in Capital**

OET common shares have been registered under the laws of the Republic of the Marshall Islands. Pursuant to an agreement with DNB Bank ASA, DNB Bank ASA is recorded as the sole shareholder in the records of the Company and maintains, in its role as VPS registrar, a sub-register of shareholders in the VPS where the ownership of the shares is registered in book-entry form under their ISIN MHY641771016. On June 29, 2018, the administration of Oslo Børs ASA resolved to admit OET's common shares for listing on the Merkur Market. The first day of trading of the common shares on the Merkur Market was on July 3, 2018. The common shares traded on the Merkur Market under the trading symbol, "OET-ME".

The Company has one class of shares. All the shares rank in parity with one another. Each share carries the right to one vote in a meeting of the shareholders and all shares are otherwise equal in all respects.

On March 5, 2019, the board of directors of the Oslo Stock Exchange approved the Company's listing application to trading on Oslo Axess. All the shares will rank in parity with one another and carry one vote per share. Trading in the shares on Oslo Axess commenced on March 8, 2019, under the trading symbol "OET".

On May 14, 2019, the Company successfully conducted a private placement, raising gross proceeds of \$15,000,000 through the placement of 1,580,000 new shares at a subscription price of NOK 83 per share.

As of June 30, 2019, the Company had 32,890,000 shares outstanding.

## 8 Commitments and Contingencies

### Commitments under shipbuilding contracts

As of June 30, 2019, the Group had commitments under six shipbuilding contracts for the acquisition of six VLCC newbuildings which amounted to \$279,338,500 all due within a year.

### Commitments under time charter agreements

Future minimum contractual charter receivable revenue, based on vessels' committed non-cancellable, long-term time charter agreements, net of address commissions, were as follows, as of June 30, 2019:

|                    |                     |
|--------------------|---------------------|
| Less than one year | \$33,760,998        |
| One to three years | 20,999,335          |
| <b>Total</b>       | <b>\$54,760,333</b> |

The respective amount for the first quarter of 2019 was \$14,517,645. The increase was due to the delivery of two VLCC newbuildings (Nissos Rhenia and Nissos Despotiko) that immediately entered into long term time charters during the quarter.

### Commitments under scrubber agreements

On October 5, 2018, the Company entered into a series of supply contracts with Ecospray Technologies S.R.L. for the supply of six scrubbers for vessels Nissos Therassia, Nissos Schinoussa, Milos, Poliegos, Kimolos and Folegandros. The contractual commitment for these scrubbers, including hardware, installation and yard costs, as at June 30, 2019 amounted to \$9,915,574 all due within a year.

## 9 Earnings / (Loss) per Share

Basic and diluted loss per share for the three and six months periods ended June 30, 2019, and for the period from inception to June 30, 2018 are presented below:

### Loss per Share, Basic

| USD PER SHARE                            | FOR THE THREE MONTHS ENDED JUNE 30, 2019 | FOR THE PERIOD APRIL 30 - JUNE 30, 2018 | FOR THE SIX MONTHS ENDED JUNE 30, 2019 | FOR THE PERIOD APRIL 30 - JUNE 30, 2018 |

## 10 Subsequent Events

In July 2019, the Company took delivery of the third and fourth VLCCs of its newbuilding program with Hyundai Heavy Industries, Nissos Santorini (Hull 3014) and Nissos Antiparos (Hull 3015).

In August 2019, the Company completed the installation of a scrubber on the Suezmax M/T Poliegos and docked the Suezmax M/T Milos for her scrubber installation.

## USE AND RECONCILIATION OF ALTERNATIVE PERFORMANCE MEASURES

The Company's unaudited interim condensed consolidated financial statements are prepared in accordance with IAS 34 "Interim Financial Reporting", as issued by the International Accounting Standards Board (IASB). Alternative performance measures are used in this report to supplement the Company's financial statements.

### Daily TCE and Adjusted Daily TCE

Time charter equivalent rate, or TCE rate, is an alternative performance measure of the average daily revenue performance of a vessel. TCE rate is a shipping industry performance measure used primarily to compare period to period changes in a shipping company's performance despite changes in the mix of charter types (such as time charters, voyage charters) under which the vessels may be employed between the periods. TCE rate is calculated by dividing revenue, less voyage expenses and commissions ("TCE Revenue"), by the number of operating days (calendar days less aggregate technical off-hire days) for the relevant time period. Adjusted time charter equivalent rate, or adjusted TCE rate, is defined the same way as TCE rate is, with the only difference being to exclude voyage expense items that are non-recurring (i.e., bunker fuel deliveries to charterers). Our method of calculating TCE and adjusted TCE rate may not be the same method as the one used by other shipping companies.

The following table sets forth our computation of TCE and Adjusted TCE rates, including a reconciliation of revenues to the TCE and Adjusted TCE rates (unaudited) for the periods presented:

### EBITDA and Adjusted EBITDA

Earnings before interest, tax, depreciation and amortization (EBITDA) is an alternative performance measure, derived directly from the statement of profit or loss and other comprehensive income by adding back to profit / (loss) depreciation, amortization, interest and finance costs and subtracting interest and other income. Adjusted EBITDA is defined as EBITDA before non-recurring items and foreign exchange gains/ (losses). Furthermore, EBITDA and adjusted EBITDA have certain limitations in use and should not be considered alternatives to profit/(loss), operating profit, cash flows from operations or any other measure of financial performance presented in accordance with International Financial Reporting Standards ("IFRS"). EBITDA and adjusted EBITDA exclude some, but not all, items that affect profit/(loss). Our method of computing EBITDA and adjusted EBITDA may not be consistent with similarly titled measures of other companies and, therefore, might not be comparable with other companies.

The following table sets forth a reconciliation of profit to EBITDA and adjusted EBITDA for the periods presented:

### Time Charter Coverage

Time Charter Coverage represents the percentage of days the fleet was on time charter and is calculated as time charter days divided by total calendar days.

### Leverage

Leverage is calculated as net debt divided by net debt plus equity.
